PAGES 1 ENCLOSURES (NO. & TYPE) 25X1A

REMARKS

# SOURCE

1. There was no flying at the PILSEN (N 50/L 04) airfield from 3:30 to 4:15 p.m. on 9 September 1949. A few fighters and three twin-engine planes were parked near the hangars. The latter were probably being overhauled. The field was guarded.
2. According to local residents, there had been intensive flying at the field in early August 1949, but hardly any flying recently. Flying was almost exclusively by single-engine fighters.
3. Soviet aircraft were not observed.

25X1A

Comment: The PILSEN airfield was observed by another source on the same day. Intensive flying by bomber and fighter aircraft was observed in the morning. Only a few aircraft were seen at the field in the afternoon. The aircraft observed in the morning possibly were in the hangars in the afternoon.
